

Calibration::loadRootHisto

Timeshifts::setTimeReference

Detectors::getLabel

```
graph LR; A[Calibration::loadRootHisto] --> C[Detectors::getLabel]; B[Timeshifts::setTimeReference] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'Calibration::loadRootHisto' and 'Timeshifts::setTimeReference', are shown on the left. Arrows from both point to a single target function, 'Detectors::getLabel', on the right. The target function is highlighted with a gray background, while the source functions have white backgrounds.
