

AnalysedSpectra::fitPeak

AnalysedSpectra::fitPeaks

AnalysedSpectra::selectX

```
graph LR; A[AnalysedSpectra::fitPeak] --> C[AnalysedSpectra::selectX]; B[AnalysedSpectra::fitPeaks] --> C;
```

The diagram illustrates a relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'AnalysedSpectra::fitPeak' and the bottom box contains 'AnalysedSpectra::fitPeaks'. On the right, there is a single gray rectangular box with a black border containing the text 'AnalysedSpectra::selectX'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both 'fitPeak' and 'fitPeaks' are inputs or related to 'selectX'.
